Sixty-fourth session
Agenda item 148
Financing of the United Nations Operation in Côte d'Ivoire

Budget for the United Nations Operation in Côte d'Ivoire for the period from 1 July 2010 to 30 June 2011

Report of the Secretary-General

Corrigendum

1. Paragraph 8

For the existing text *substitute*

8. The resource requirements for the 2010/11 period reflect an increase of 0.2 per cent compared with the 2009/10 period, which is attributable primarily to: (a) increased requirements for the rental and operation of aircraft as a result of higher contractual prices; and (b) provision for the disarmament, demobilization and reintegration programme to provide support for the reinsertion of former members of armed groups, youth at risk, ex-combatants and ex-militias. The increased requirements are party offset by: (a) lower military personnel costs as a result of the reduced deployment of troops due to the reduction, decided by the Security Council in its resolution 1865 (2009), of the level of authorized military personnel from 8,115 to 7,450; (b) reduced civilian personnel costs as a result of the proposed reduction in international posts and United Nations Volunteers; and (c) lower requirements for information technology equipment, as much equipment is planned for replacement in 2009/10.

2. Paragraph 63

For the existing text *substitute*

63. The reduced requirements are attributable mainly to the proposed net reduction of 125 United Nations Volunteers, offset partly by the increase in the Volunteer living allowance, the settling-in grant and pre-departure and repatriation expenses.

3. Annex II.A

In the box for the Embargo Cell, the footnote to the second P-3 post *should read* P-3[a].
